

I am a proud resident of Woodside, who moved here because my wife and I love this town and knew it would be a great place to raise our young children and eventually retire. As a parent, a nature lover, and a homeowner in Woodside, I have a vested interest in ensuring our town keeps the character and charm that attracted us all to move and stay here in the first place. The horses, hiking trails, redwood trees, small downtown, and friendly neighbors make our town unique and special. While I know that some change is inevitable, my goal is to work with the community to limit the negative impact of the housing mandates, improve the safety of the roads, and to represent the interests of everyone in District 5. In my career as an employment attorney, I have significant experience negotiating contracts, analyzing laws, and assertively advocating for the interests of clients, while always maintaining respect and civility. Based on my experience and strong work ethic, I believe I am well qualified to represent the interests of our district and town.
