 This data included on this map is derived from an update of the Town Geologic Map prepared by W.R. Dickison (1973), revised by J.C. Cummings (1975 and 1976) and William Cotton and Associates (1988, 1989, and 1992). Geologic data is based on limited ground reconnaissance, aerial photograph interpretation, and evaluation of published maps. The map also includes modifications to reflect the results of many of the unpublished, site-specific fault investigations submitted to the Town prior to December 2014. Alquist Priolo Special Study Zone data acquired through the Association of Bay Area Governments.

Note: This map is not to be relied upon as site-specific data.
